

SEMS DocID 630140

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION I
JFK Federal Building, Boston, MA 02203-2211

MEMORANDUM

DATE: July 26, 1991

SUBJ: CERCLIS Listing of Tri Star Spout Inc.

FROM: Nancy Smith
Region I EPI Coordinator

TO: Project File

This site is being entered into CERCLIS as part of the Environmental Priorities Initiative (EPI).

The EPI is a program designed to conduct initial assessments of certain RCRA facilities under the Superfund Site Assessment program. The EPI represents an integrated RCRA/CERCLA approach to assessing hazardous waste sites, which will contribute to the effort to focus Federal resources on cleaning up the worst sites first.

Those RCRA sites that conform to the parameters of the EPI program will be assessed with Superfund resources, utilizing procedures that combine elements of the Superfund Preliminary Assessment (PA) and Site Inspection (SI), and the RCRA Facility Assessment (RFA). These EPI "PA-Plus" assessments will provide information necessary to assign facility priorities for RCRA corrective action using the national RCRA prioritization model.

Upon completion of the EPI PA-Plus assessment, EPI sites will be deferred back to the RCRA program for corrective action.
